

www.emctla.com

The EMCTLA is an industry trade association whose members comprise EMC test labs, independent EMC consultants and other parties with an interest in EMC testing such as:

- EMC component & equipment manufacturers
- Product manufactures & suppliers.
- Compliance advisory services

Since 1992 the EMCTLA has worked to ensure a commonality of approach to EMC testing. The EMCTLA have representation at British Standards committees, GEL 210, GEL 210-11 and GEL 210-12. We also have many technical experts who represent the UK, or are independent international experts, at the IEC and CISPR`.

Our aim is to keep members up to date with developments in the EMC industry and to promote a commonality of approach to compliance with EMC standards.
